2.4 Planning and Publication

- 1) Library Newsletter
 - The library issued OH! MY LIB CAFÉ both in Japanese and English twice a year.
 - When we issue it, we send the latest issue to the other libraries and companies who visited our library before.

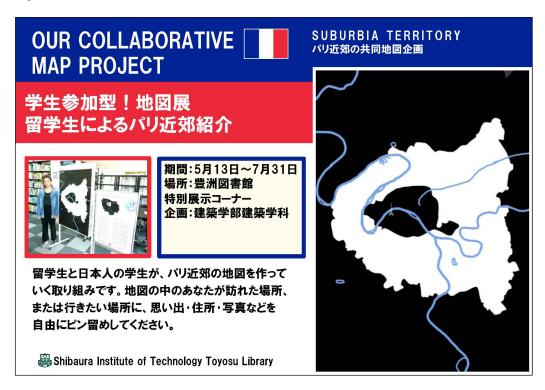

2) Exhibition

The exhibition led to increased student interest and a rise in the number of exhibited books leased related to the theme.

• We had a participatory exhibition which made a map near Paris, by requesting French students learning at the faculty of architecture what she wanted to show Japanese more about their country of France. The finished map was very detailed and we had a greater-than-expected amount of feedback.

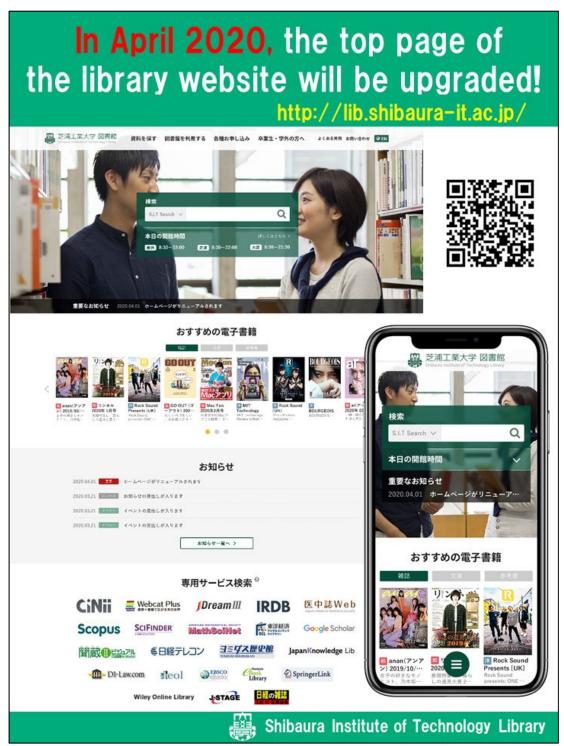

We coordinated with the laboratory and circle to exhibit research theses and so on.

3) Home page

- The number of page views in FY2019: 270,346 views (111% increase year-on-year)
- Top page was renewed with concepts of easily viewable, easily to find, and familiarity.
 Main purpose is increasing use of E-materials, cross-searching and the number of views of library HP.

*Main content: Search frame, Important notice, Recommended E-book, SIT Domestic service (Guidance, Book Garden, Collection, Annual library report, Web bookshelf, etc.), Link (various E-materials)

4) Library satisfaction survey

- We have held a survey every October since 2009. In order to support students'
 aggressive and independent study, we aimed at more efficient use of these research
 results.
- We received 2,977 answers and comprehensive total score out of 5 was 4.07, same as the last year's score.
- · As a first experiment we released a new questionnaire to graduates.
