

2.2 Coordination with other sections

1) Coordination with career support section

- We encourage students to borrow (use) job-hunting related materials, including e-books via distribution of leaflets at job-hunting courses and seminars (including online seminars). 45 sessions were held in FY2025.
- Securities Report Database EOL Guidance sessions were held on May 27th and on December 5th (total of 92 students participated). Last year, the sessions were held both in person and online during the winter season. This year, the first session was scheduled in the spring, when students start company research. Guidance videos were made available on the library website for campus use only. Many participants commented that the sessions helped them realize how useful the eol database can be for job hunting.

- Use of library facilities for web interviews
Based on a request from the career support section, we made library facilities available to students for web interviews. During the peak season, more than 100 people used the service in a month and it was used 954 times throughout the year.
- "List of 400 well-known companies and the employment results of our graduates" was prepared and posted in the library during the open campus.

2) Coordination with Division of Global Initiative

3) Coordination with SIT junior and senior high schools

- This effort is to help junior and senior high school students decide on their future courses and visualize their future campus life at SIT, by familiarizing them with the university library and encouraging them to read specialized books.
- We advertise this program that allows high school students to use the university library while they are still in high school.
- The target students were expanded from 3rd year students to include 1st and 2nd year students, and an online library orientation was held. Participants: 428, 1st and 2nd year senior high school students (on Jun. 24th)
- The videos of digital tours for high school students were posted on the University Library website.
